Logbook Entries

To enter a blog entry:

1. Login via the link at top right
2. Select **Add, Blog Post** from the upper right menu
3. Enter a title, and contents.
4. To aid in searching, add one or more one-word labels in your entry.
5. Save
6. It can take a few minutes before the new entry is found via the search tools, or listed in the following pages:

See [All Log Entries](#) for a listing of the titles of the AHATS log entries.
See [All Log Contents](#) for a page displaying all the log entries. This takes a while to be rendered...
See [Sonic Entries](#) to view entries with a label of "sonic".
See [Pressure Entries](#) to view entries with a label of "pressure".

Chronology

Start (PDT)	End (PDT)		horiz spacing	downwind heights	upwind height
June 9, 2008		setup begins			
June 25 12:00	July 1 12:17	widely spaced array, lowest heights	3.99 m	3.3 and 4.3 m	3.8 m
July 1 12:55	July 18 05:55	wide array, lowest heights	3.99 m	3.3 and 4.3 m	3.3 m
July 20 16:00	July 29 06:00	medium spaced array, lowest heights	1.29 m	3.7 and 4.7 m	3.7 m

July 29 12:30	Aug 8 06:00	medium spaced array, medium heights	1.29 m	4.8 and 5.8 m	4.8 m
Aug 9 18:00	Aug 16 09:00	narrow spaced array, highest heights	0.42 m	7.0 and 8.0 m	7.0 m
August 16		teardown begins
