

EOL Field Blog for 2009 ASP Colloquium

This is the field (b)logbook for the [2009 ASP Colloquium](#) at [EOL](#). Entries will be posted here concerning the operations of the [Mobile Integrated Sounding System \(MISS\)](#) and the [Integrated Surface Flux System \(ISFS\)](#).

Logbook Entries

To enter a blog entry

1. Login via the link at top right
2. Select **Add, News** from the upper right menu
3. If possible use one or more of these labels in an entry: **miss, isfs, marshall, platteville, network, sonics, trh, licor7500, radiation, soil**. You can also create your own labels.

See [All Log Entries](#) for a listing of the titles of the ASP2009 log entries.

See [MISS Entries](#) for a listing of titles of entries with a label of "MISS".

See [ISFS Entries](#) for a listing of titles of entries with a label of "ISFS".

See [All Log Contents](#) for a page displaying all the log entries.

QC Plots

[QC plots of ISFS data](#) are updated every 15 minutes.

[Plots of ISS data](#) updated every 30 minutes.

ToDo Lists

ISFS ToDo	
	☒ Check Q7 (Rnet) data at Platteville after next download
MISS ToDo	
	☐ fix timezone info for wind profile web plots
	☐ fix nima crashes
