Google Earth at UCAR

Google Outreach granted UCAR a number of Google Earth Pro licenses for use by UCAR staff from 2010-2011 but has discontinued our grant due to NCAR's status as an FFRDC. If you need the additional features of Google Earth Pro, such as video recording, higher resolution printing, and advanced import/export, please contact [Google Earth Pro Sales](#) to purchase a license key. Otherwise, you can simply download the freely available [Google Earth](#) which doesn't require a license key.

Fair Use Policy

Google Earth and Google Earth Pro have a [fair use policy](#) that covers many academic uses. Please consult this page before publishing screenshots of your data in Google Earth or Google Earth Pro.

Google Earth Mailman List

Join the [Google Earth Mailman List](#) if you'd like to join the discussion of how Google Earth is being put to use at UCAR as well as share tips with others.

UCAR Google Earth Solutions Exchange and Showcase

Please share your Google Earth and Google Earth Pro solutions here by adding links, uploading scripts, KML files or other Google Earth-related solutions and output. Alternatively, you can add a wiki page that describes your solution in more detail.
