

**AMS's K-12 Science Teachers  
Educational Outreach Initiative**  
January 6, 7 and 8, 2013 at the  
AMS 93<sup>rd</sup> Annual Meeting, Austin, Texas  
Austin Convention Center

Join members of the American Meteorological Society (AMS) and connect with some of the most innovative and forwarding thinking scientists in our Nation on critical topics such as severe weather, climate change, and weather forecasting. Here's what you can expect:

**WeatherFest! Sunday, January 6<sup>th</sup>, noon - 4 pm**

Attend and gather new ideas to spark the wonder of science in your students at this engaging public event, or host a booth yourself to share weather-related activities you find most effective and engaging with students of any age. Limited funding is available for teachers interested in hosting a booth at the event!

**Teacher Professional Development Workshop! Monday, January 7<sup>th</sup>**

Attend a dedicated **K-12 teacher workshop** on Monday with grade-specific breakout sessions where the best weather-related resources in education are shared.

**Symposium on Education Posters and Presentations! Monday, January 7<sup>th</sup>**

Attend or present at the Symposium on Education at the Annual AMS Conference Monday afternoon, or listen to invited national leaders at the AMS Short Course on Weather, Oceans and Climate.

**Meteorology Short Course w/ Jim Brey, AMS Education Program Director, Tuesday, Jan. 8<sup>th</sup>**

Join your professional colleagues and expand your meteorology knowledge!

Opportunities abound to interact with our nation's weather and climate experts. Additionally teacher scholarships are available for both Austin and out-of-area educators. If you're passionate about weather education, join us!

**Learn more online at the 2013 American Meteorological Society  
AMS 93<sup>rd</sup> Annual Meeting website -- soon to be updated with 2013 information!**
