How to Get an account on Cheyenne

See NCAR CISL’s New User Orientation for information on how to create an account on Cheyenne: https://www2.cisl.ucar.edu/user-support/new-user-orientation

All information can be found on CISL’s website above, but we want to highlight that opportunities exist for researchers, who are interested in testing out CAM-chem, with minimal effort. The following researchers can request small allocations on Cheyenne (up to 400,000 core-hours):

- Graduate Students or Postdocs at a U.S. university
- U.S. University Researchers with an NSF award - small allocations can be requested for each award you receive.

We encourage you to take advantage of these opportunities and more by visiting: https://www2.cisl.ucar.edu/user-support/allocations/university-allocations

Collaborators: if you have a greater need, contact the ACOM staff you work with.
