Aph3 stopped recording TRH and Handar

Gordon, Oct 21

We don't have TRH or Handar data from Aph3 last night and today from Oct 20 20:29 to Oct 21 11:51 MDT, due to the old problem of PC104 interrupts stopping.

Installed a new kernel, and rebooted. I don't think the new kernel will solve this issue. Turns out the fix for "pending" interrupts was also in the previous kernel.

Linux Aph3 2.6.35.9-ael1-2-titan #1 PREEMPT Sat Oct 13 12:45:33 MDT 2012 armv5tel unknown
