

Daily Status, Monday November 5

On Site: TWH and Larry Mahrt

Weather:

Scattered clouds; light south winds; temperature 9 degC, 60% RH

Status:

Booooring...

To Do:

Categorized photos and retake photos of station configuration. Previous photos were often back-lit, which made the sensors indistinct.

Attend ISF group-heads meeting at 1:30 via Skype.

Vamoose.
