

Daliy Status 28 Nov. 2012

Weather:

Overcast with light winds. Winds throughout the night peaked around 6 m/s. Temperatures pushed down to 8C.

Status:

11:00: John left yesterday and Steve S. is now on site. All stations reporting.

21:00: Everything looking good. I did notice A14 and A17 both went down for a short period, ~5 minutes. I could not ping them.
