

Guy wire tensions

May 31

Kurt measured guy wire tension, first while Gordon was climbing tower, and second after Gordon was finished on the tower:

Direction	height	number	first	second	6/13 /2013 (cg)	6 /21 /13	7/11 /2013 (cg /jm)	Direction	first	second	5/13 /2013 (cg)	6 /21 /13	7/11 /2013 (cg /jm)	Direction	first	s
South	low	1	400	410	375	400	405	NNE	490	500	465	460	470	WNW	440	470
		2	350	345	330	340	345		480	500	475	470	495		510	540
		3	400	400	375	340	345		540	580	510	500	525		490	500
		4	425	425	350	450	460		390	380	340	350	360		360	370
		5	370	360	340	375	410		410	390	400	410	405		260	270
		6	350	350	340	440	325		370	360	330	420	390		370	350

*This turnbuckle is maxed out. You will have to pull a link.

#3 links taken in on 6/21.
