

tower work

At tower mostly to take LAI profile since mostly overcast.

0958 - Oncley cleaned 2m kh2o

1010 - Semmer starts ascent

1015 - Oncley soilb sample

1020 - Semmer first LAI reading at 40m

1025 - Oncley soil a sample

1029 - Oncley unplug rain gauge drain (tube was mostly open, so data should have been okay)

1040 - Semmer clean 14m krypton

1048 - Semmer down
