

Base Packed

July 18, 2013

Base Trailer is packed and ready for moving. We will stage it over by the old gov't buildings so Trailer Transit will not have to deal with any nasty conditions. The tower is down to 30' and all sections have been cached by the old gov't buildings.

Lightning protection has been removed from the SEARCH site. Hardhats, first aid kit and safety glasses have been brought back to the AABC site for shipping.
