

Helene - 2000

Available data files:

20000919I1.1sec.txt
20000920I1.1sec.txt
20000921I1.1sec.txt

Files used in processing:

20000919I1.1sec.txt - ferry flight, flight duration seems too long for fight path (incorrect ferry leg masking)

20000920I1.1sec.txt

20000921I1.1sec.txt

Notes:

20140205 - JV **no .trak file**

20140305 - JV **Sep 16 - USAF 980 (0112A) – no file linked from HRD web page**

Sep 16 - USAF 866 (0212A) – no file linked from HRD web page

Sep 18 - USAF 980 (0312A) – no file linked from HRD web page

Sep 21 - USAF 967 (0612A) – no file linked from HRD web page

Sep 21 - USAF 866 (0712A) – no file linked from HRD web page

Sep 22 - USAF 966 (0812A) – no file linked from HRD web page

20140513 - JV **HRD has now provided a .trak file** Neal Dorst reports: "I have made a wind center track for Helene 2000. For some reason we don't have any 10 second data from the Air Force flights into this storm, so I have used the operational fixes for those missions. We do have the 1 second data from the three NOAA missions into the storm, so I have refined wind centers from those flights and placed the one second 'flat files' on the FTP site for the NOAA flights."

20140525 - JV **HRD has provided higher resolution files for these three flights, copied to yellowstone**
