

Transition Information

To Do	links	status
LGM comp set	cd: /glade/p/work/jedwards/sandboxes /cesm1_1_2_rel03.LM/scripts > ./create_newcase -case /glade/scratch /\$USER/b.e11.BLMTRC5CN.f19_g16.001 -res f19_g16 -compset BLMTRC5CN -mach yellowstone	NOTES: 1. The tag is set for an 850 control case. Namelist changes are required to change to a transient case. (Remember to compare CaseDoc/[*] in files against the 850-1849 segment of the LME, since forcing changed for many variables. (e.g., b.e11.BLMTRC5CN.f19_g16.002.850-1849)). 2. Namelists modifications for changing to transient cases are here: /glade/p/cesm/palwg /LastMillennium/Namelists. You can also find a summary listing here . 3. SourceMods: /glade/p/cesm/palwg/LastMillennium/SourceMods (These are already incorporated into the tag)
HPSS	palwg_dev	runs need to be added to HPSS
FAQ	http://www.cesm.ucar.edu/models/paleo/faq/	Still need HowTo portion; links to SVN (at present, they are in cesm-models; they need to be copied to cesm-release. Add caveats on what is not supported, and what is.
