

3.0 Code Review Checklist

Class	Implementer	Interface	Documentation	Implementation	Developer API
ControlExec	Alan				yes
DataMgr	John				yes
VDCNetCDF	John	pass			yes
WASP	John	pass			no
VDC	John	pass			yes
NetCDFCpp	John	pass			no
ParamsBase	Alan	pass	pass	pass	yes
ParamsNode	Alan	pass	pass	pass	yes
params	Alan	pass	pass	pass	yes
vizwinparams	Alan				
instanceparams	Alan				
mousemodeparams	Alan				
viewpointparams	Alan				
viewpoint	Alan				
regionparams	Alan				
animationparams	Alan				
arrowparams	Alan	pass	pass	pass	no
Box	Alan				
command	Alan				
renderer	Alan				
arrowrender	Alan	pass	pass		no
visualizer	Alan				
vizwinmgr	Alan				
vizwin	Alan				
eventrouter	Alan				

Description of fields

Class: class (or header file) name

Implementer: Name of primary developer

Interface: Interface provides needed capabilities, is appropriately structured, etc. Values: Pass, Fail, blank (not reviewed)

Documentation: Public (e.g. header files) and private (e.g. source) code are adequately documented. Values: Pass, Fail, blank (not reviewed)

Implementation: Source code meets best SE practices. Values: Pass, Fail, blank (not reviewed)

Developer API: Part of developer API needed for 3rd party development? Values: Yes, No
