

Developer APIs

Developer APIs

UCARConnect and DLESE provide a set of APIs that help developers to access, reuse, organize, manage, and disseminate quality digital educational content and collections.

To begin, see the [Technical Overview](#) to get an understanding of the UCARConnect/DLESE technical platform and use the navigation bar at the left to access detailed information about the APIs.

This are complements, and may redirect to the [Contributing Resources to the UCARConnect Catalog](#) wiki.
