

Website overhaul

Link to website editing [documentation](#)

TODO items

description	URL	who	notes	Status
home page needs updating	https://test7.vapor.cms.ucar.edu/	scott	overview is out of date	done
features out of date	https://test7.vapor.cms.ucar.edu/vapor-features	scott		done
credits out of date	https://test7.vapor.cms.ucar.edu/credits	scott	Add Scott, KISTI staff; remove cruft at bottom of page	done
cruft on citing page	https://test7.vapor.cms.ucar.edu/citation	scott		done
documentation books -> pages		scott	Explore making pages out of some of the documentation books	postponed
command-line tools: need drupal page with links to current version of each man page	https://test7.vapor.cms.ucar.edu/docs/reference-manuals/command-line-interface-reference	scott	raw html is currently in http://docs.software.ucar.edu/vapor/Documentation/2.4.0/doc/library/html/ Preferable to link current documentation to http://docs.software.ucar.edu/vapor/Documentation/current/doc/library/html/ with a symlink on webpub.ucar.edu from current to 2.4.0, but web site doesn't seem to allow this. Consult steve.	done
Add video tutorials to Training /Tutorial	https://test7.vapor.cms.ucar.edu/docs/vapor-tutorials	scott	restructuring of page might be good idea Training/Tutorials - section heading for older documents	done
Training/Tutorials updates	https://test7.vapor.cms.ucar.edu/docs/vapor-tutorials	scott	section heading for older documents dates in heading for older material	done
Documentation menu changes		scott	Delete Documentation/Overview item and replace with Documentation/Usage /Overview contents	postponed
remove references to vista, xp, and users of vapor 1.0, and documents on older systems regarding "extra" files	https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-windows-binary-installation	scott		done
remove references to 32bit binaries (i386)	https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-mac-binary-installation	scott		done
needs an environment setup section (in yellow) like on the Mac	https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-windows-binary-installation	scott		done
link to 3rd party libs broken (goes to example data)	https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-source-installation-dependencies	scott		done
list of 3rd party lib dependencies is replicated - should just link to https://test7.vapor.cms.ucar.edu/internal/downloads/source-distributions	https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-source-windows-installation	scott		done
Need model-specific documentation section (for WRF users, GRIB, etc.)		scott	possibly as part of getting started guide?	review
data prep guide needs overhaul	https://test7.vapor.cms.ucar.edu/docs/usage/vapor-data-preparation	jc		done
gui and render guide need link verification	https://test7.vapor.cms.ucar.edu/docs/usage/vapor-gui-general-guide	alan		done

Documentation/Data Analys - needs overhaul		scott	too much nesting. reoganize structure. needs link to internal python api	postponed
gallery updates		scott	movies need to be uploaded to youtube and linked. Current image gallery is not accessible (need to consult with steve as to how to find images - they're on the drupal 7 site, but not classified into galleries yet). Galleries and images should be classified by theme/discipline (e.g. weather, turbulence, climate, ocean)	
Change Support/Report Bugs menu to Support/Source-forge		scott	Stop sending users to sourceforge site for reporting bugs.	done
No menu for programming apis yet.	https://test7.vapor.cms.ucar.edu/docs/programming-apis	jc	Confirm this is correct url with steve (page is a book under reference manuals, but does not appear there)	done
