

# Website overhaul

Link to website editing [documentation](#)

## TODO items

description	URL	who	notes	Status
home page needs updating	<a href="https://test7.vapor.cms.ucar.edu/">https://test7.vapor.cms.ucar.edu/</a>	scott	overview is out of date	done
features out of date	<a href="https://test7.vapor.cms.ucar.edu/vapor-features">https://test7.vapor.cms.ucar.edu/vapor-features</a>	scott		done
credits out of date	<a href="https://test7.vapor.cms.ucar.edu/credits">https://test7.vapor.cms.ucar.edu/credits</a>	scott	Add Scott, KISTI staff; remove cruft at bottom of page	done
cruft on citing page	<a href="https://test7.vapor.cms.ucar.edu/citation">https://test7.vapor.cms.ucar.edu/citation</a>	scott		done
documentation books -> pages		scott	Explore making pages out of some of the documentation books	postponed
command-line tools: need drupal page with links to current version of each man page	<a href="https://test7.vapor.cms.ucar.edu/docs/reference-manuals/command-line-interface-reference">https://test7.vapor.cms.ucar.edu/docs/reference-manuals/command-line-interface-reference</a>	scott	raw html is currently in <a href="http://docs.software.ucar.edu/vapor/Documentation/2.4.0/doc/library/html/">http://docs.software.ucar.edu/vapor/Documentation/2.4.0/doc/library/html/</a>  Preferable to link current documentation to <a href="http://docs.software.ucar.edu/vapor/Documentation/current/doc/library/html/">http://docs.software.ucar.edu/vapor/Documentation/current/doc/library/html/</a> with a symlink on webpub.ucar.edu from current to 2.4.0, but web site doesn't seem to allow this. Consult steve.	done
Add video tutorials to Training /Tutorial	<a href="https://test7.vapor.cms.ucar.edu/docs/vapor-tutorials">https://test7.vapor.cms.ucar.edu/docs/vapor-tutorials</a>	scott	restructuring of page might be good idea Training/Tutorials - section heading for older documents	done
Training/Tutorials updates	<a href="https://test7.vapor.cms.ucar.edu/docs/vapor-tutorials">https://test7.vapor.cms.ucar.edu/docs/vapor-tutorials</a>	scott	section heading for older documents  dates in heading for older material	done
Documentation menu changes		scott	Delete Documentation/Overview item and replace with Documentation/Usage /Overview contents	postponed
remove references to vista, xp, and users of vapor 1.0, and documents on older systems regarding "extra" files	<a href="https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-windows-binary-installation">https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-windows-binary-installation</a>	scott		done
remove references to 32bit binaries (i386)	<a href="https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-mac-binary-installation">https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-mac-binary-installation</a>	scott		done
needs an environment setup section (in yellow) like on the Mac	<a href="https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-windows-binary-installation">https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-windows-binary-installation</a>	scott		done
link to 3rd party libs broken (goes to example data)	<a href="https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-source-installation-dependencies">https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-source-installation-dependencies</a>	scott		done
list of 3rd party lib dependencies is replicated - should just link to <a href="https://test7.vapor.cms.ucar.edu/internal/downloads/source-distributions">https://test7.vapor.cms.ucar.edu/internal/downloads/source-distributions</a>	<a href="https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-source-windows-installation">https://test7.vapor.cms.ucar.edu/docs/vapor-installation/vapor-source-windows-installation</a>	scott		done
Need model-specific documentation section (for WRF users, GRIB, etc.)		scott	possibly as part of getting started guide?	review
data prep guide needs overhaul	<a href="https://test7.vapor.cms.ucar.edu/docs/usage/vapor-data-preparation">https://test7.vapor.cms.ucar.edu/docs/usage/vapor-data-preparation</a>	jc		done
gui and render guide need link verification	<a href="https://test7.vapor.cms.ucar.edu/docs/usage/vapor-gui-general-guide">https://test7.vapor.cms.ucar.edu/docs/usage/vapor-gui-general-guide</a>	alan		done

Documentation/Data Analys - needs overhaul		scott	too much nesting. reoganize structure. needs link to internal python api	postponed
gallery updates		scott	movies need to be uploaded to youtube and linked. Current image gallery is not accessible (need to consult with steve as to how to find images - they're on the drupal 7 site, but not classified into galleries yet). Galleries and images should be classified by theme/discipline (e.g. weather, turbulence, climate, ocean)	
Change Support/Report Bugs menu to Support/Sourfce-forge		scott	Stop sending users to sourceforge site for reporting bugs.	done
No menu for programming apis yet.	<a href="https://test7.vapor.cms.ucar.edu/docs/programming-apis">https://test7.vapor.cms.ucar.edu/docs/programming-apis</a>	jc	Confirm this is correct url with steve (page is a book under reference manuals, but does not appear there)	done
