

ARL LiCors

The ARL LiCors have been stuck in customs for weeks. We expect them to finally arrive early next week. Speaking with Chris Hocut today, they have shipped 5, but would like to deploy 3 on their towers. That leaves 2 for us to deploy. Tina K. Chow selected the 2 rsw masts for the locations for these licors. I just hope they arrive before Andy and I leave, so Gary and Kate don't have to deal with them.
