

# DSM kit contents

From memory, but I'm pretty sure this is what is in there:

- Laptop (eddy) + charger
- Tablet + charger
- Spare port caps: bulgin, mote, power
- Fuses: 1A, 3A, 5A, the small ones for pi power
- Spare jumpers
- Spare EC150 socks
- Barometer tubing
- Pi hat boards and USB cable for logging in through the console
- 2 spare USB sticks
- 12V switch
- Ethernet cables
- USB cables (for power monitor)
- USB hub
- Patch cables (ethernet and USB)
- Tape: electrical, labeling, duct, etc
- Needlenose pliers
- Markers
- Zip ties and cutter
- Spare ethernet bulkheads
- Spare cell modems
- Spare cell antenna
