

CISL's Storage Advisors Group Home

This wiki is for sharing CISL's Storage Advisors Group (SAG) meeting agendas and minutes as well as any and all slide decks and recordings of the meetings among its members. It's also planned that this will eventually serve as a centralized place for follow up discussions on matters of importance discussed at the group's monthly meetings.

All SAG members are NCAR HPC users, therefore they have CIT credentials in order to access our computing and storage systems. Those same CIT credentials are also used to access this wiki space.

The member list and other administrative details will also be maintained here.

Meetings

The Storage Advisors Group meets the 3rd Wednesday of each month at 1:00 pm, Mountain time.
