

# Status 22 Feb

Snow stopped and clouds broke up about 8AM. A nice, sunny day for most of the morning. Terry left about 15min before this happened, so never saw the mountains!

Bought tire chains and checked out snowmachine rental.

DCS: broke up a bunch of ice, freeing the main power cable.

Base: organized a bit, then a bit more!

Helped Bill with the 4pm sounding, since there was some wind and there were some gas issues.
