

Site Internet down Wed 5/24 between 9am and 2pm

The ISP for the SOS site, XTREME Internet, texted a notice to Rochell that the Internet connection will be down for maintenance between 9am and 2pm on Wed, 5/24. They did not say for how long, so maybe it will be a short interruption. This means all real-time data from the site will be interrupted, but everything should catch up when the connection is restored.
