K-12 Classroom

Classroom for K-12 Programs

Description & Benefits:

Provide classroom space for onsite K-12 programs. This space should include lab space for both hands on experiments and a computer lab for computational exploration. The room will be used as a central starting point for group tours and for group activities.

UCAR/NCAR's role:

Provide adequate space within the new facility to accomodate classroom space. Provide computer resources for a computer lab within this space.

For More Information:

Have discussions with E&O about the current classroom space within the Mesa Lab. Suggested questions are available on the Interview Questions page.
