

# Art Gallery

## Art Gallery

### Description & Benefits:

Include an art gallery as part of the exhibit space within the new facility. This gallery should feature local Wyoming artists who don't typically exhibit in larger galleries. Cheyenne has a fairly rich artist community, and this would provide an exhibit space for up and coming new artists. This would be advertised within the local community and through the tourism channels.

### UCAR/NCAR's role:

Provide exhibit space within the facility. Organize a group to select exhibits.
