

Wed, Nov 3 2010

- Meeting time 2:00 - 4:00 ET.
- Meeting Location: AAAS Offices, Washington DC.
- [Back to Meeting Notes](#)

Agenda:

Strand Map Service Updates: (Attendees: John, Jonathan, Mike, Ted, Brian, Bruce Mason - Compadre)

This part of the meeting was to discuss issues around the SMS and relation to the Benchmarks Online. Main outcomes:

1. Brian will get a SMS up at AAAS in tomcat 5 (issues with SMS working in Tomcat 6).
2. Ted will do text edits to benchmarks - will require a simple database interface (e.g. Phpmyadmin) for him to edit tables.
3. Relationship consistency checks
 - a. What inconsistencies to look for - **Ted provide set of rules** - see [Ted's email](#)
 - b. Develop some graph-walking routines to do the checks
4. Section - Grade connection in SMS (to provide the same information the Benchmarks Online can provide - this is what Compadre is interested in seeing to be able to walk back up the benchmark tree)
5. SMS Benchmark ID to ASN id resolver - simple service to do these mappings

DRK-12 Proposal Planning: (Attendees: John, Jonathan, Mike, Brian, Ted, Francis)

Francis outlined the plan for AAAS to submit a proposal to DRK-12 program this year (by Jan 2011). Francis has submitted a letter of intent. The work needed by us is similar to last year.

- [See attached work proposal](#) (Word doc).
