

playa1 krypton

Dec 08, 4:23 pm, Tom, Gordon

Cleaned krypton with water from ladder, didn't lower mast. 4:2? pm

twh (3/1/11): high-rate data shows cleaned at 16:27

Sonic wicks ok, though one extended about 1cm past surface of transducer.
Pulled it back, so that it extended just a little past surface.

kh2oV = 1.5 V after cleaning
