

river7 rad mote

12:15pm MST 31 Dec 2010

Spare rad mote 8 has been replaced with new rad mote 17 sent from Militzer.

the new mote 17 was able to communicate with radio, and radiation data is now transmitting. Horst confirmed ability to check data via radio.

Mote 8 contains original data on its microSD card, and must be downloaded. The mote is now in the base trailer.
