

Jan 28 Wvally4, router down

11:10 - 11:35

clear with a touch of haze

11:15 soil sample taken, containers 1:0-3 and 1:3-6, dessicant ok in radiometers

Worked on router to get ststaion back on the air. Gordon provided a list of commands to try. Based on the results of the commands he was able to determine why the router locked up. He will work on a fix.

Recycled power to router and got it going.
