

E&O Videos, Molecules & Atmosphere Diagrams shown at 14 April 2011 meeting

Here are links to the resources I showed at the 14 April 2011 meeting of the UCAR Visualization Group meeting

- [Atmospheric Chemistry Graphics Library](#) - depictions of molecules relevant to atmospheric science
- [Layers of Earth's Atmosphere](#) - diagrams of atmosphere layers
- NSF OLPA Climate Videos
 - [NSF: To What Degree? What Science is Telling Us About Climate Change](#)
 - [UCAR E&O's versions](#) - edited/recombined versions of segments from NSF source videos (on Windows to the Universe)
- [CMMAP](#) (Center for Multiscale Modeling of Atmospheric Processes - an NSF Science & Technology Center, run by Colorado State Univ. with significant NCAR involvement) & [Little Shop of Physics](#) (group at CSU that does science demonstrations & cable TV show) [videos](#)
 - [Greenhouse Effect as described by CSU professor Scott Denning](#)
 - sample LSOP video - [Beaufort Scale of Wind Speeds](#)
 - [collection of 8 CMMAP & LSOP videos](#)
