

Field Log for the Crop Wind Energy Experiment (CWEX11) Educational Deployment

This is the field logbook for the Crop Wind Energy Experiment (CWEX11). NCAR EOL will be deploying four Integrated Surface Flux System (ISFS) at CWEX11, measuring fluxes of turbulent energy, latent heat, sensible heat and CO₂.

Field Logbook

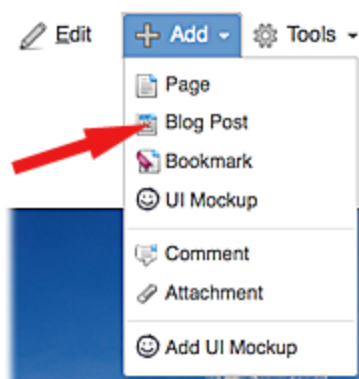

A logbook entry is a **Blog Post** on this wiki. To add an entry:

1. Login via the link at top right
2. Select **Add, Blog Post** from the upper right menu
3. Enter a title, and contents.
4. To aid in searching, add one or more labels from the following list: power, communication, sonic, licor7500, krypton, trh, propvane, barometer, ncar1, ncar2, ncar3, ncar4 or windcube.
5. Save
6. It can take a few minutes before the new entry is found via the search tools, or listed in index tables.

See [All Log Entries](#) for a listing of the titles of the CWEX11 log entries.

To view the complete logbook, select on **Browse** -> **Blog** above.

See [Email Notifications](#) below, for how to enable notifications.

Email Notifications

To configure whether to receive email notifications of updates to this space, do the following:

1. Login
2. Go to a page in the space, open the **Browse** menu and select **Advanced**.
3. In the left-hand panel, click **Start watching this space**, or **Stop watching this space**

The emails will be somewhat unreadable unless you ask for html format:

1. click on your name in the upper right
2. choose, **Profile, Settings, Email, Edit**
3. select the format you want (text or html), and whether you want the full and/or changed content.
4. **Submit**
