

# ncar4 up

Jun 22, 5:46 pm CDT

Low clouds, intermittent light rain, winds from the WSW

ncar 4 is up

CSAT3: 0671

krypton: 1390

prop: 00318, propeller: 53678

baro: B10

2m: TRH26

10m: TRH15

Verified that prop direction read 0 when vane held along boom.  
Plan to deploy the props with the boom direction set to 0 (BD000)  
and correct the directions in software.
