

WeatherFest Wiki - Home

Why a wiki?

The AMS WeatherFest WIKI is designed as a shared location for minutes, subcommittees, marketing materials, tasks, deadlines, reports and more. It will evolve into whatever we need it to be. Fill free to add pages, upload attachments, edit content, post comments, etc. as you feel the need, and to keep everyone abreast of the current status of WeatherFest "to dos." A page has also been added for the Teacher Workshop that proceeds or follows WeatherFest activities. The hope is that this will help with continuity from year to year and be a shared space for important WeatherFest preparations, delivery, and followup.

Contents

As you add pages to our WIKI space, they will appear here in a page tree browser. Please feel free to add pages as necessary or your own page for notes, to dos, etc.
